Setting Discounts as a Host on StreamLode: A Quick Guide

As a host on StreamLode, you can offer enticing discounts to your audience. This guide will provide you with simple and concise instructions on how to set up discounts as a host. Whether you're new to the platform or have some experience, follow these steps to create and manage discount coupons effectively. Let's get started!

Logging in and Accessing the Discount Coupons Section

- Log in to your StreamLode host account using your credentials.
- Once logged in, navigate to the host's dashboard.
- Locate the left-side navigation menu and click on the "**Discount Coupons**" section.

Creating Discount Coupons

- Within the Discount Coupons section, you will find two options in the dropdown menu: "Coupon List" and "Create-Coupon".
- Click on "**Create-Coupon**" to proceed with creating a new discount coupon.

Filling out the Coupon Details

- The Coupon form will be displayed on your screen.
- Fill in the required details to create the coupon:
    - **Coupon name:** Enter a name for your coupon. The coupon code will be automatically generated based on the name.
    - **Percentage off:** Define the discount percentage that will be applied when users redeem the coupon.
    - **Duration:** Choose between "Once" and "Forever" from the dropdown menu.
        - "Once": The coupon can be used by one user for a single appointment, after which it will be deactivated.
        - "Forever": The coupon can be used by multiple users until the specified expiration date.

- ○ **Expire date:** Set the expiration date for the coupon, specifying when it will no longer be valid.
- ● Once you have filled in all the necessary details, click the "**Submit**" button.

Congratulations! You have successfully set up discounts as a host on StreamLode. By following these simple steps, you can create enticing discount coupons for your audience. Remember to manage your coupons effectively. Keep track of expiration dates, to ensure the discount offers align with your promotional strategy.
